Hello Sung and Steve (from Beijin	g),			
As I promised Sung, I would weigh in once I got back to Beijing. The visit to the DPRK by John Lewis, Bob Carlin and me				
was a shocker. They took us to Yongbyon and showed us a functioning 2,000 centrifuge uranium enrichment plant in				
operation and a small LWR under construction. The technical implications are significant and you understand the				-
political implications better than		- 0	•	ļ
I am attaching a quick-look summary of my technical observations. Bob Carlin will follow with policy observations based				
on our discussions with MFA officials and their implications as soon as he has a chance.				

appointments either late on Monday, Nov. 22 or early on Tuesday, Nov. 23.

I am scheduled to be in DC for an advisory function for Secretary Steve Chu on Monday, Nov. 22. I will attempt to see Secretary Clinton since my colleague, Bill Perry, had mentioned my trip to her during a recent West Coast swing. And, of course, I very much would like to brief the two of you. At this point, I hope that Bob Carlin and I will be able to get

UNCLASSIFIED U.S. Department of State Case No. F-2014-20439 Doc No. C05776031 Date: 12/31/2015

We are all returning to San Francisco on Sunday. I will try to contact Sung from here and then again when I return to my Stanford office on Monday.

Thanks,

Sig
